

Chemo Caps

This is a very easy hat to make, and you can use recycled t-shirts or left over knit fabric from other projects to make them.

Instructions; Cut your fabric according to the charts below. Fold the rectangle in half right sides together, stitch on the short side, using ¼ inch seams. Then fold it wrong sides together and mark quarter and half marks either with a pin or some type of marker. Place 2 circles together wrong sides, mark your quarter and half marks with pins match up with hat and stitch. Turn rights side out and embellish.
